

COMPREHENSIVE LIST OF MENTORS

RESEARCH TRACK

Sahar Ahmad

Utilizing Ultrasound to Predict Pleural Effusion Etiology

Cecilia Avila

Heart Failure in Pregnancy & Puerperium: Prevalence, Etiology, and Impact of Mode of Delivery on Maternal Outcomes

Heart Failure in Pregnancy & Puerperium Prevalence, Etiology, and Impact of Mode of Delivery on Maternal Outcomes

Retrospective Study of Induction of Labor (≤ 39 weeks' gestation): Perinatal and Maternal Outcomes Stratified by Parity and Service

Nephrolithiasis in Pregnant Women: A Retrospective Chart Analysis for Quality Assurance

SPARCS database analysis: Evaluation of the variation in health outcomes over time for pregnant women diagnosed with chorioamnionitis versus non-chorioamnionitis.

SPARCS Database Analyses: Comparing Geographic Variations of Chorioamnionitis Outcomes and Associated Risk Factors for Mothers"

Agnieszka Bialkowska

Evaluating the efficacy of 5-FU modified miR-15a delivery at inhibiting pancreatic stellate cell activation in vitro and at inhibiting fibrosis in murine models of chronic pancreatitis

Nurit Ballas

Activity-dependent aberrations in gene expression and alternative splicing in a mouse model of Rett syndrome

James Barsi

Quality of Health Information Available on Idiopathic Scoliosis

Anat Beigon

Hormone Status Influence on Mild Traumatic Brain Injury Outcomes

Sex based differences in the relationship between brain volume and metabolism

Acute hypogonadism and early outcome in men with mild traumatic brain injury

Elliott Bennett-Guerraro

Using Web-based Methods to Improve Collection of Patient Reported Outcomes

Understanding convalescent plasma as a potential therapeutic for COVID-19

Thomas Bilfinger

Evaluating the Risk-Adjusted Outcomes of Mitral Valve Repair Procedures for Single Center Surgeons vs. Multiple Center Surgeons

Comparing the efficacy of different antithrombotic strategies in patients with atrial fibrillation after transcatheter aortic valve replacement: A Systematic Review and Meta-Analysis

The Impact of Socioeconomic Disparities and Mental Disorders: Differences in Lung Cancer Treatment and 2-Year Outcome Rates

The Impact of Hospital Characteristics in Intervention of those with Mental Disorders: Differences in Lung Cancer Treatment and 2-Year Outcome Rates

Lung cancer and aortic aneurysms

Evaluation of Concerning Lung Nodules

Danny Bluestein

Using CT Derived Calcium Scoring to Predict Valve Embolism During TAVR Procedure

Duc Bui

Retrospective Review of Sarcoma Recurrence After Resection With and Without Negative Pressure Wound Therapy

Comparing Superior Versus Inferior Pedicle Reduction Mammoplasty: Evaluation of Clinical and Aesthetic Outcomes - A Single Surgeon's Experience Over 10 Years

Is Immediate Tissue Expander Breast Reconstruction a Safe Option After Premastectomy Radiation?

Joseph Chappelle

Antenatal Anxiety as a Predictor for Postpartum Depression

Jiang Chen - Available mentor in dermatology

Maribeth Chitkara

Magic therapy to relieve pediatric patient anxiety and improve overall hospitalization experience

Christopher Clarke

Investigating the role of the nSMase2-Cer pathway in Dox-induced cardiotoxicity

Sean Clouston

Parosmia as a Predictor of Mild Cognitive Impairment in World Trade Center Responders

Judith Crowell

Metabolic Outcome in Adult Psychiatry with Abuse Histories

Lukasz Czerwonka

Parathyroidectomy in chronic kidney disease patients undergoing surgery for thyroid nodules: a nationwide database analysis

Comparison of Precision Between Manual and Virtual Surgical Planning for Mandibular Reconstruction

Alexander Dagum

Comparison of the Basal View and a Previously Standardized Cleft Lip Rating Scale Amongst Different Medical Professionals

The Incidence of Characteristic Physical Exam Findings in Patients with Maxillofacial Fracture

Prospective Trial of Indocyanine Green Dye Angiography in the Surgical Evaluation of Partial Thickness Burn Wounds

A Statewide Review of Readmissions and Complications Following Cleft Lip and Cleft Palate Repair

Tissue-Engineered Vascular Grafts for Use in Vascular and Reconstructive Surgery

An anatomic feasibility study on the use of the hypoglossal nerve as a donor for free functioning muscle transfer in the upper extremity

Raphael Davis

Combined Anterior-Posterior Cervical Decompression & Fusion in the Treatment of Advanced Spinal Deformity

Christine Delorenzo

Relations between cortical thickness, serotonin 1A receptor binding, and structural connectivity: A multimodal imaging study

Michael Egnor

Bifrontal Biparietal Cruciate Decompressive Craniectomy in Pediatric Traumatic Brain Injury

Raafat El-Maghrabi

Dynamic functional brain connectivity underlying temporal summation of pain in fibromyalgia

Marian Evinger

"Establishing the Link Between Smoking and Breast Cancer"

John Fitzgerald

NYS Trends in MRI Guided Biopsy and Prostate Cancer Management

NYS Trends in Cystectomy: Robotic vs. Open procedures

SPARCS Database Evaluation of PSA Diagnostic Test Performance

Bettina Fries

Evaluation of Mechanisms Promoting Antibiotic Resistance Transference and Prevalence of Klebsiella Pneumoniae Infections

Infectious Complications in Persons Who Inject Drugs (PWID): A Detailed Review in Hospitalized Patients

Infectious Complications in People Who Inject Drugs (PWID): A Review of Hospitalized PWID Throughout COVID-19 Pandemic

Laura J. Fochtman

Successful treatment of major depressive disorder in a patient status-post bilateral orthotopic lung transplantation using repetitive transcranial magnetic stimulation

Jack Fuhrer

Evaluation of treatment outcomes and regression of pathologic liver disease in HCV-HIV co-infected treated individuals

Diana Garretto

Opioid Maintenance Therapy (OMT) on Maternal and Neonatal Outcomes

Patient understanding and satisfaction during the intrapartum course

Antonio Gasparis

Calf Deep Venous Thrombosis Propagation: Treatment and Clinical Implications

Georgios Georgakis

Introduction of the Robotic Platform in Complex Hepatobiliary Surgical Procedures: The Case for a Robotic Pancreaticoduodenectomy

Berhane Ghebrehiwet

Assessing the Role of C1q and gC1qR in Melanoma

Alexandra Gillaume

Optical colonoscopy services for the underinsured population in the Stony Brook University Hospital (SBUH) catchment area of Long Island

Bennett Guerrero

Are analgesic administration and surgical manipulation reflected in the Analgesia/Nociception Index?

Lauren Hale

The Baby Blues and Breastfeeding: Exploring the characteristics of mothers who nurse versus those who do not.

Ysusuf Hannun

Investigating the role of the nSMase2-Cer pathway in Dox-induced cardiotoxicity

Laura Hogan

Does BMI impact the need to modify 6-mercaptopurine and methotrexate dosing during maintenance therapy for pediatric acute lymphoblastic leukemia patients?

Robert Honkanen

Validation of an Advanced Keratography Unity to Measure Dry Eye Disease in an Animal Model

An investigation of the association between metformin use and age-related macular degeneration in type II diabetics with glycemic control held constant

Mathematical modeling of Dry Eye Disease using multivariate techniques: a new method of diagnosis

Meeting the Unmet Needs of Dry Eye Disease: Development of a Novel Diagnostic Strategy and New Treatment

Development of a Novel Therapy for Dry Eye Disease: the Study of Phospho-sulindac with Focus on Molecular Mechanisms of its Neuroprotective Effect on Corneal Nerves

Helen Hsieh

IV Morphine vs. IV acetaminophen for post-operative pain control in the NICU: A retrospective cohort study

Effects of Necrotizing Enterocolitis (NEC) on Developing Neuronal Circuits: Neurodevelopmental Outcomes in NEC Patients at Stony Brook Children's Hospital and an Analysis of Developing Hippocampal Circuits in a Murine Mouse Model

IV Morphine vs. IV acetaminophen for post-operative pain control in the NICU: A retrospective cohort study

Tara Huston

Secondary Intention Healing after Mohs Surgical Excision as an Alternative to Surgical Repair: Evaluation of Wound Characteristics and Cosmetic Outcomes
Comparison of melanoma and merkel cell carcinoma trends at Stony Brook Medicine with National Cancer Database
Relationship Between Cancer Center Accreditation and Associated Hospital Characteristics and Outcomes in Locally Recurrent and Metastatic Melanoma After Surgical Excision
Comparing Post-Operative Outcomes of Sex-Specific Procedures by Surgeon-Patient Sex Concordance
Trends in Completion Lymph Node Dissection for Metastatic Melanoma: A New York State and Nation-wide Descriptive Study
Adult Skin Cancer: A New York State Descriptive Study

Genna Hymowitz

Associations between Childhood Verbal Abuse and Weight Loss in Bariatric Surgery
The effects of access to healthcare on emotional and physical amongst patients participating in a metabolic and bariatric surgery (MBS) program

Evan Jones - Available mentor for Dermatology

Sami Khan

Prospective Trial of Multivitamin and Protein Supplementation to Reduce Surgical Complications after Body Contouring Surgery in the Bariatric Surgery Population
Venous Thromboembolism and Bleeding Events With Chemoprophylaxis in Abdominoplasty: A Systematic Review and Pooled Analysis of 1,596 Patients
Retrospective Review of Outcomes of Complex Abdominal Wall Hernia Repairs
A Multiple Surgical Sub-Specialty Analysis of Post-Operative Outcomes Among Government Payer Patients

Jason Kim

The Effect of Medicare & Medicaid on Wait Times for Female Pelvic Medicine and Reconstructive Surgery Providers
LONGITUDINAL EVALUATION OF NEW OVERACTIVE BLADDER PATIENTS: ARE PATIENTS FOLLOWING UP AND UTILIZING THIRD LINE THERAPIES
Patient perception and recall of prior mesh surgery for stress urinary incontinence or pelvic organ prolapse
Patients have poor compliance with repeat onabotulinumtoxin A injections for overactive bladder
Longitudinal Evaluation of New Overactive Bladder Patients: Are Patients Following Up and Utilizing Third Line Therapies?
Patient Preference of Third Line Therapy for Overactive Bladder
A randomized controlled trial comparing the efficacy of a condensed (twice weekly) protocol to the standard (once per week) protocol of percutaneous tibial nerve stimulation (PTNS) in the treatment of overactive bladder syndrome (OAB)

A randomized controlled trial investigating the efficacy of percutaneous tibial nerve stimulation (PTNS) in the treatment of female sexual dysfunction (FSD)

David Komatsu

Customized Cutting Guides for Skeletal Tumor Resection

Novel Spiked-Washer Repair Is Biomechanically Superior To Suture and Bone Tunnels for Arcuate Fracture Repair

A novel rat model to study post-operative pain after Total Knee Arthroplasty

Rat Model of Total Knee Arthroplasty

Enhancement of Bone Regeneration through Apoptosis Modulation

Assessment of the role of acromial morphology in acute rotator cuff tears treated nonoperatively

Aleksandra Krajewski

Patient characteristics in gender-affirming surgeries of transgender individuals

Temporal Trends in the Sequelae and Timing of Gender-Affirming Surgeries of Transgender Individuals

Hospital Characteristics of gender-affirming surgeries of transgender individuals

Surgical Outcomes and Cardiac Risk Assessment in Post-Mastectomy Breast Cancer Lymphedema Patients

Mary Kritzer

The Impact of Biological Sex and Sex Hormones on Cognition in a Rat Model of Early, Pre-Motor Parkinson's Disease

Exploring the Neural Circuit Basis for Sex Differences in Non-Motor Symptoms of Parkinson's Disease

Theater Training as Effective Therapy in Parkinson's Disease: Quantifying the Qualitative

The Effect of Sex Hormones in the Subthalamic Nucleus on Cognitive Impairment in a Rodent Model of Early Parkinson's Disease

Interactive effects of biological sex, sex hormones, genetics and environmental factors on biological and behavioral endpoints in rats relevant to the cognitive symptoms of schizophrenia

Nicos Labropoulos

Remodeling of Acute Vein Thrombosis

Analysis and Comparison of Mice Venous Thrombosis in Both IVC Ligation and Electrolytic Inferior Vena Cava Models

Sarah H. Lisanby

Successful treatment of major depressive disorder in a patient status-post bilateral orthotopic lung transplantation using repetitive transcranial magnetic stimulation

Chiara Luberto

Regulations of human sphingomyelin synthase 1 translation through its 5'-untranslated region

Purification of recombinant human sphingomyelin synthase 1 and 2

Yupa Ma

Ex vivo expansion of hematopoietic stem cells derived from umbilical cord blood for use in stem cell transplantation.

Sandeep Mallipattu

Loss of proximal tubular Kruppel-like factor (KLF-15) exacerbates kidney injury through loss of fatty acid oxidation

Louis Manganas

Risk Factors for Pediatric Multiple Sclerosis

Kartik Mani

Integrated clinical-radiomic-pathomic analysis for response prediction in patients receiving stereotactic body radiation therapy for early-stage non-small lung cancer

Carine Maurer

The Association Between Tic Disorders and Atopy

David McKinnon

Transcription Factor Network of Cardiac Hypertrophy

Allison McLarty

Multicenter Evaluation of Extracorporeal Membrane Oxygenation as a Bridge to Durable Left Ventricular Assist Device - The BRIDGE-MCS Study

The impact of socioeconomic risk variables on access to quality healthcare, and the impact on TAA diagnosis and adverse outcomes - a data-driven analysis and risk calculator

Bicuspid Aortic Valves & Thoracic Aortic Aneurysms: Diagnosis Trends over Time in the NYS Population

Predictors of Outcome After Explantation of Vaecmo

Assessing the Risks and Outcomes in Transfer Patients Experienceing Thoracic Aortic Ruptures and Acute Aortic Dissections

Charles Mikell

PET Imaging in Patients with Post-Stroke Apathy
The Stony Brook Awake Craniotomy Protocol: A Technical Note
Modeling the return to consciousness after severe traumatic brain injury at a large academic level 1 trauma center
Analysis of facial micro-expressions and its applications using digital image speckle correlation
A Larger-Scale Study for Developing a Mood-Assessment Tool to Quantify and Detect the Neural Correlates Associated With Mood Changes
Identifying the electrophysiological signature of slow and fast return of consciousness in patients with traumatic brain injury
Rate of Recovery in Traumatic Brain Injury Patients Can Predict Final Outcomes
Facial analysis to detect early signs of consciousness following traumatic brain injury

Joshua Miller

Effect of glycemic control on colonic adenoma-carcinoma progression in patients with diabetes mellitus
Impact of Type 2 Diabetes Mellitus on Colorectal Adenoma-Carcinoma Progression: Which metabolic factors play a role?
Hypoglycemia and Clinical Outcomes in Hospitalized Patients with Diabetes

David Montrose

Effect of serine metabolism and autophagy disruption on colon cancer cell survival
--

Eric Morley

Emergency Department CT in Early Acute Pancreatitis

Eric Muir

Continued In-Hospital Angiotensin-Converting Enzyme Inhibitor and Angiotensin II Receptor Blocker Use in Hypertensive COVID-19 Patients Is Associated With Positive Clinical Outcomes

Sharon Nachman

Predictors of Academic Success in Perinatally HIV-Infected Children
Analysis of BMI as a predictor for vaccine-induced immune response in children living with HIV receiving highly active antiretroviral therapy

Barbara Nemesure

Evaluating Trends and Disparities in Stage at Diagnosis of Colorectal Cancer at Stony Brook University Hospital

Ramin Parsey

Quantification of the Serotonin 1A Receptor Using PET: Identification of a Potential Biomarker of Major Depression in Males

Relationship of Cortical Thickness and 5-HT 1A Receptor Expression in Major Depressive Disorder

Puja Parikh

Valves

Gender Disparities in the Management and Outcomes of Adults with Cryptogenic Stroke and Concomitant Patent Foramen Ovale

Impact of Post-Traumatic Stress Disorder on Management & Outcomes in Veterans with Coronary Artery Disease

Progression and outcomes in men versus women with aortic stenosis

Trends in Adoption and Outcomes of TAVR (as compared to SAVR) in NYS

Ramin Parsey

Relationship of Cortical Thickness and 5-HT 1A Receptor Expression in Major Depressive Disorder

Jignesh Patel

Impact of Inflammatory Cytokines on Mortality in Adult Patients following Cardiac Arrest

Susmita Pati

Improving Adherence to Care Recommendations Using a Community Health Worker (CHW) Intervention with the Pediatric Medical Home

Evaluating strategies to improve clinical quality metrics in a high-performing patient-centered medical home for children

Michael Pearl

The Significance of iCTC Drug Response (CDR) Testing in vitro in Guiding Treatment Decisions for Ovarian Cancer Patients

Srinivas Pentyala

Specific STEM Summer Program Qualities Increase Likelihood of Pursuit of a Career in Biomedical Science

Development and Clinical Validation of a Point-of-Care Test for the Diagnosis of Gout

Jonathan Price

The Impact of Perioperative Atrial Fibrillation on Patient Outcomes Following Repair of Thoracic Aortic Aneurysms

Aurora Pryor

Analyzing the Rates of Pyloroplasty Following Initial Fundoplication for Patients with GERD: a New York State Analysis

The Impact of Interval Appendectomy Timing on Follow-up Adverse Outcomes

The Impact of COVID-19 Related Social Distancing and Quality of Life Changes on Outcomes of Bariatric Surgery Patients.

Post-operative Outcomes for Sleeve Gastrectomy Patients with positive pH-defined GERD

Yi-Xian Qin

Musculoskeletal Tissue Regeneration and Repair by Dynamic Low-Intensity Pulse Ultrasound Integrated with BMP and Nanotube Biomaterial within Scaffold

Eric Rashba

Differences in Left Ventricular Remodeling Response After Cardiac Resynchronization Therapy Between Left Bundle-Branch Block and Non-Left Bundle-Branch Block Patients

Markus Riessland

FAM49B: An Age-Related Genetic Risk Factor for Parkinsons and It's Role in Microglia

Chander Sadasivan

The Effect of Three-Dimensional Cerebrovascular Morphology on the Etiology of Intracranial Aneurysms

Joel Saltz

Predicting Non-Small-Cell Lung Tumor Response to Immune Checkpoint Inhibitors from Computational Analysis of CT Radiographs and Histopathological Images

Samer Sbayi

Identifying Opportunities to Improve Stony Brook General Surgery Patients' Satisfaction with Post-Operative Pain Management: New Remote Patient Monitoring and Telehealth Care Initiatives

Post-Operative Patient Satisfaction and Compliance of a Remote Patient Monitoring Program in SBUH Appendectomy and Cholecystectomy Patients

Annie Laurie Shroyer

Factors Influencing Extubation Time in Coronary Artery Bypass Graft Patients

Author Gender Impacts Publication Success: A Retrospective Analysis of Top Biomedical Journals

Disparities in Radical Prostatectomy Approach and Wait-times by Race/Ethnicity and Insurance Status

Impact of Hospital Characteristics on TAVR/SAVR Procedural Outcomes Based on Publicly Available SPARCS Data

Music therapy's effect on patients with late stage Alzheimer's disease
Decreasing the use of transabdominal ultrasound and computed tomography for the evaluation of appendicitis in pediatric patients
Heart Failure in Pregnancy and the Puerperium
The efficacy and complications of local anesthesia in patients with a high international normalized ratio (INR) undergoing limb salvage procedures
Geographic Variations in Mitral Valve Repair Risk-Adjusted Clinical Outcomes
Gender Concordance and Success Rates in Biomedical Publications
Surgeon Mitral Valve Replacement/Repair - Comparing outcomes for single center (SC) vs. multiple center (MC) surgeons (Variations in SC versus MC Surgeons' Risk-Adjusted Mitral Valve Repair Procedural Resource Consumption Metrics)
The Impact of Mentor-Mentee Gender Concordance on Publication Success in Top Biomedical Journals
An individual patient-level meta analysis of the three largest, multi-center randomized trials comparing on versus off-pump coronary artery bypass grafting in patients with low left ventricular ejection fraction
Identifying surgeon and hospital characteristics that are associated with worse risk-adjusted outcomes of off-pump vs on coronary artery bypass grafts (CABG) procedures
Heart Failure in Pregnancy and the Puerperium
The efficacy and complications of local anesthesia in patients with a high international normalized ratio (INR) undergoing limb salvage procedures

Kenneth Shroyer

Keratin 17 as negative prognostic marker for endometrial carcinoma
Keratin-17 Expression in Human Renal Cell Carcinoma
Keratin 17 Predicts Poor Outcome Within Receptor Negative Breast Cancer
Effect of Keratin-17 Expression in Human Breast Cancer Cells

Katherine Siamas - Available mentor in dermatology

Adam Singer

Physiologic markers of resuscitation for the septic patient: the association between cerebral oximetry and lactic acid
Acute Myocardial Infarction Classification Based On Serum Troponin in the Emergency Department
Comparison of Pulmonary Embolism Risk Stratification Tools in their Ability to Predict Adverse Outcomes
Comparison of Pulmonary Embolism Risk Stratification Tools in their Ability to Predict Adverse Outcomes
Investigating the Survival of Human Skin Grafts on Normal and SCID Pigs
Patient Preference for Opioids Before and After an Educational Intervention in the Emergency Department
Accuracy of Structured Physical Exam and Ultrasound in Emergency Department Patients with Dyspnea
Effect of Tadalafil on Reepithelialization of Partial Thickness Porcine Burns

Does Plurogel Reduce Burn Injury Progression in a Sprague Dawley Rat Model
4F-PCC versus Andexanet Alfa for bleeding on factor Xa inhibitors
Prolonged Manual Ventilation with a Bag-Valve-Mask Device
Determining the optimal treatment for deep partial-thickness burns in swine
Effect of Nitric Oxide on Endothelial Cell Growth after Exposure to Oxidative Stress and Nutrient Deprivation
Comparison of the effects of a bromelain and collagenase based enzymatic agent on inflammation and eschar debridement in a partial thickness porcine model

Gurtej Singh

Negative Pressure Wound Therapy (NPWT) Yields Lower Wound Complication and Surgical Site Infection Rates Compared to Standard Surgical Dressings (SSDs) After Resection of a Malignancy: A Systematic Review & Meta-analysis
Development of Vascularized Tissue Engineered Skin Constructs for Skin Injuries
Development of Bioengineered Vascular Grafts in vitro for Applications in Vascular and Reconstructive Surgeries.
Tissue-Engineered Vascular Grafts for Use in Vascular and Reconstructive Surgery

Hal Skopicki

A Retrospective Study on the Use of Serial Transthoracic Echocardiography to Predict Clinical Changes in Heart Failure Patients
Concomitant problems and outcomes in patients hospitalized for acute heart failure
A Retrospective Study on the Use of Serial Transthoracic Echocardiography to Predict Clinical Changes in Heart Failure Patients
Concomitant problems and outcomes in patients hospitalized for acute heart failure

Dylan Smith

Association Between Inpatient Sleep Loss and Hyperglycemia of Hospitalization

Alexander Stessin

Thyroid Volume Changes Following Adjuvant Radiation Therapy for Breast Cancer

Allison Stopeck

Exploring the Motives and Attitudes Towards Participation in Prevention Clinical Trials for Breast Cancer
A Quality Improvement Project to Reduce the Unplanned 30-Day Readmission Rate of Cancer Patients

Adam Singer

Analyzing the Effect of Skin Autograft Combined With Supplemental Nutrient/Polymer Scaffolding Solution on Wound Healing in Treating Full-Thickness Burns in the Porcine Model

Preclinical Assessment of Stratagraft for Deep Partial and Full Thickness Burns in Normal and SCID Pigs

The use of TENS for the treatment of abdominal pain in the emergency department

Wen-Wei Tchou

Exploring the Impact of Post-Traumatic Stress Disorder (PTSD) on Solid Cancer Patient Outcomes

Investigating the Effects of Post-Traumatic Stress Disorder (PTSD) on Prostate Cancer Outcomes
